We believe in a multiracial, inclusive democracy where everyone has equal rights and they live, how much money they have, or what they look like. That's they hook like and they live for what they look like and the force we're fighting for.

We are committed to Monviolence —not just as a principle, but as a strategy. We reject political violence and intimidation in all forms. It is the peaceful, strategic resistance that shows strength and creates long lasting change.

Authoritarians want us to feel small and powerless. They use fear and division to keep us apart. We reject that. We lead with hope—because we believe people, united, can change what's possible.

**HOPE OVER FEAR** 

## INDIVISIBLE IS A PEOPLE-POWERED MOVEMENT FOR PROGRESSIVE CHANGE.

The Wabash Valley chapter of Indivisible is made up of volunteers from Clay, Parke, Sullivan, Vermillion, and Vigo Counties.

## CORE VALUES

## **SHAPING THE FUTURE**

We're building more than a political movement—we're building a community committed to saving democracy and defeating authoritarianism. These values guide everything we do: how we show up, who we fight for, and what future we're creating—together.

## **ORGANIZE, NOT IDOLIZE**

We don't rely on any one politician to save us. Our power comes from the people. We hold all elected leaders accountable—even the ones we support. We center the voices of those most affected by injustice and work alongside them to build real change.
