**Gerrymandering Steals Power from ALL of Us!**

**Both parties are guilty**

Across the US, each party has shown they care more about holding onto their power than empowering voters.

**But democracy works best when:**

We all take part and when our representatives actually represent us.

**Nationally, Redistricting is Suddenly a Big Story!**

States where the majority political party has forced - or threatened - redistricting to manipulate district maps for their own partisan gain are **cheating** ALL Americans out of the fair representation that we all deserve.

**Why Should We Care?**

Gerrymandered districts are districts where incumbents and politicians from the majority party are almost guaranteed to win. That means:

**Politicians don't have to listen to voters.**

We can't hold them accountable, and nothing ever changes.

**Fewer people participate in democracy.**

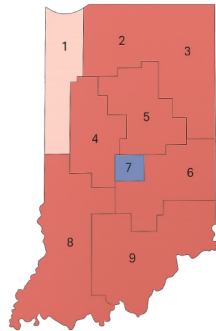

We're less likely to vote, run for office, or protest if we don't see change.

## What is Redistricting?

*adapted from League of Women Voters of Ohio*

### What is Redistricting?

Redistricting is the process of redrawing the boundaries of electoral districts to reflect changes in population.

#### Main Goal

The main goal is to update the geographical boundaries of legislative districts to reflect new population numbers so that each district has similar population numbers for fairness.

#### Frequency

Every 10 years, after the census.

### What is Gerrymandering?

Gerrymandering is when electoral districts are drawn by the party in power and incumbent politicians with the intention of influencing who gets elected.

#### Main Goal

The main goal is for the political party in charge and incumbent politicians to maintain their power by rigging districts in their favor.

#### Gerrymandering is Cheating!

It lets politicians pick their voters, when it should be the other way around.
